Professional :

Frontend Developer -2021

Successfully spearheaded a project team to secure victory in a hackathon by harnessing the power of React.js, Material UI, and Redux. We engineered a robust student result management system. This achievement was particularly challenging due to the constraints of limited time and the dynamic dynamics of team collaboration, requiring us to efficiently manage our resources and adapt to evolving circumstances.

Trainer -2022

Facilitated a highly effective frontend web development bootcamp at the American University in Sulaimaniya, Iraq, with a specific mission to empower and equip aspiring female developers with in-depth expertise in web development. This initiative was driven by a strong commitment to supporting and nurturing every student's individual learning journey, ensuring that each participant received personalized attention and guidance throughout the program.

EDUCATION

Software Engineering

Computer Science and Mathematics College, Software Engineering Department.

[Re:Coded](#) Bootcamp (Re:Coded + Flatiron School)

Completed a rigorous 5-month web development program covering HTML, CSS, JavaScript, and React. Re-ran the program Re:Coded in collaboration with Flatiron School's renowned curriculum.
